SWEET FACE: AN INSTALLATION BY JOSEPH DUNNING

Dahl-Thomas Gallery

September 11-November 23, 2025

Join us for a public reception on Thursday, September 11 from 5:30-7:00 p.m.

Sweet Face is a dual-facing projection installation that presents normalized life. Excerpts of reality, fiction, and the convoluted relationship between the two materialized in the everyday are on display. Carefully constructed from natural and artificial materials, these works exist in a state of physical opposition.

In these work's classification, situated somewhere between film and object: you may leave and return without missing any beginning or end, as innumerable unique instances and relationships are produced on the screen. A distinct dichotomy emerges within the installation's subject matter: video excerpts are indefinitely competing with and being compared to one another. The installation offers a space to collectively consider the relationships between the moving images and their place within the context of our lives.

DANA POTTER: PATTERNS OF DISTRACTION

Dresser-Robinson Gallery

September 11-November 23, 2025

Join us for a public reception on Thursday, September 11 from 5:30-7:00 p.m.

Patterns of Distraction contextualizes the social media feed as a spectacle using kaleidoscopic filters to generate video, print, and augmented reality. The kaleidoscope, invented by accident in the early 1800s during a scientific study of light, uses three mirrors arranged in a triangle to create endless, symmetrical patterns from small bits of glass and light. With just a little movement, it becomes as mesmerizing as fireworks or waterfalls.

At the center of the exhibition is a video that transforms screen recordings from Snapchat and TikTok into geometric patterns. Like social media algorithms, the kaleidoscope repeats and arranges content into a system designed to hold our attention. This exhibition alters how we experience social media and reorients our attention to repetition, distraction, and visual appeal.

Meet Hearst Teen Art Club & Messy Mornings ALL STAR Instructor Extraordinaire

Hello to JIYOUNG KIM!

You've seen her on Hearsts' social media creating with our youth artists for years. Now she graces the pages in this fall edition. We are thrilled to highlight Jiyoung with all her expertise and creativity.

Currently she leads the talented Teen Art Club, co-leads the popular Messy Mornings, and assists with our outreach programming in the community. She is returning for her fourth year this fall and is excited to create more memories and masterpieces with young artists.

Jiyoung graduated from Sejong University with a BA in Fine & Applied Art with an MA from Hanyang University in Art Education. In her free time she enjoys fishing, cycling, golf, and being with her family.

Why do you teach art?

I teach art because I believe it's one of the most powerful forms of self-expression. It drives creativity, builds confidence, and gives people (especially young kids) a way to communicate thoughts and emotions that words sometimes can't fully convey.

What inspires you?

One of the most rewarding parts of teaching is watching students grow in their artistic skills and gain confidence. It's truly inspiring to see their progress.

What are you looking forward to?

I'm really looking forward to seeing the students' creative art projects—there is always something new to learn or feel through art.
