Hearst Center Earth Week 2020

Dear Parents,

Happy earth week from Green Iowa AmeriCorps! We are a statewide community service program dedicated to empowering Iowa's communities to become more environmentally conscious through direct service work, environmental education, and volunteer engagement. We originally had a few interactive activities planned for this Earth Day event, however due to current circumstances we have instead created an activity sheet you can do from home. We have created a fun bingo game activity for you to do with your kids. You can stick to the original rules of bingo by completing five in a row, an X, or 4 corners, or you can challenge yourself to complete the whole sheet! This doesn't have to be something you complete in one day, feel free to work on these activities throughout the whole Earth week. When you get a bingo, be sure to post it to social media and tag us to show us how you celebrated Earth week! Additionally, there is a supplementary document about creating pollinator gardens in the Midwest. We thought this may be a good resource for families wanting to go the extra mile this Earth Week! We hope these activities will help you get out of the house and explore the beautiful nature that's all around you.

Happy Hunting!

For additional information about Green Iowa AmeriCorps and the services and resources we provide, please visit us at www.greeniowaamericorps.org or direct questions to greeniowacf@gmail.com

Earth Week BINGO

B	I	N	G	O
Find an animal track	Find a bioretention cell	Support a local business	Pick up one bag of litter	Make a birdfeeder
